About me

Self-taught programmer who found love for coding after working in other fields and not being intrigued enough.

I have been taking Udemy and Youtube courses to learn the basics of front-end web development and now I am seeking to find an internship or junior position and prove my skills and passion for coding to you, as well as to continue to grow and learn, aiming to become a full stack developer.

WORK EXPERIENCE

Remote Frontend Developer at "Akommo"

Novi Sad, Serbia (Current)

- Airbnb inspired Spanish accommodation platform (both system and design)
- Using JavaScript and Vue.js (Vue 3 features included), as well as React to style pages and make them functional and reusable Components that receive data from GraphQL
- Using Ant Design and LESS / SCSS to declare styling variables and components that can be passed across the whole App

Financial Analyst at "Technology College Sarawak"

Kuching, Malaysia (11/2019)

- Analysing and monitoring the general budget and expenditures of the College
- Advising on future investments and existing cost reductions

Volunteer at "Paint the World" - Training & Workshops

- Volunteering at events worldwide - Malaysia, Tanzania, Bangladesh & Serbia
- Leading motivational workshops with the kids and students in orphanages; "How to enter the educational world and be a motivated and dedicated student"
- Organising and attending the events in orphanages to provide kids with food, clothes and a bit of happiness

Affiliate manager trainee at "Vertigo Media"

Barcelona, Spain (07/2019-10/2019)

- Selection and planning of emailing campaigns with affiliate networks and direct advertisers
- Analysis of sent campaigns, monitoring user reactivity and financial results
- Actively prospect for new advertisers and database owners through LinkedIn and phone calls

Motivational workshops at "Zlatibor Handyman&Hygiene Corp"

Novi Sad, Serbia (summer 2016-/2018)

- First workshops for the company; getting to know all workers individually and their needs
- Organizing weekly workshops with small focus groups
- Teaching employees both hard and soft skills of being more focused and motivated
